Update on Groundwater and Landfill Gas Evaluation Project

Jackson County Solid Waste Landfill

May 19, 1999

Discussion Items

Status of Groundwater Investigation

- Summary of the recent groundwater and gas probes installations
- Land survey — mws & LFG probes. No boundary survey
- Groundwater flow direction (bedrock vs. unconsolidated)
- Groundwater quality results

Distribution of Landfill Gas and Effects of the Gas Venting System

- Summary of gas measurements
- Status of venting system improvements — how deep are trenches? (T. Jewett has copies)
- Effects of venting system on gas distribution

Impacts to Offsite Properties

- Groundwater
- Landfill Gas

Other

- Permit boundary adjustment
- Access agreements / property ownership
- Need for additional monitoring
